

MAYENLIST ALL UP TO 40

New Order Is Received at
Recruiting Stations.

Educational and Physical Qualifications Have Also Been Loosened to Slight Degree.

Special Columbus Correspondent.
Columbus, April 11.—New orders have been received at the recruiting stations in Ohio which will tend to stimulate further enlistment. The army may enlist men up to 40 years of age and colored soldiers will be accepted for the cavalry and the infantry. The educational and physical qualifications have also been loosened to a slight degree.

A movement is on foot in Columbus to have boys work "war farms." Supt. Francis of the Columbus schools has sent out a call for boy farmers. He has requested principals to enlist boys who are willing to work on farms in the summer months. If a boy is willing to spend 12 hours a week on a nearby farm, Francis contends that farmers will be able to use them extensively this summer. If all of the available land is put under cultivation.

No Slacker Is Lyon.
C. C. Lyon, political and feature writer of a local paper, is no slacker. He has joined the navy and has already passed through the training school and is a full fledged bluejacket out for the defense of the country. Lyon was prominent in the first trouble with Mexico, when an article he wrote on army conditions was reprinted by the government. He will write special articles for his papers on the United States navy. Lyon is one of the most popular and versatile newspaper men who ever worked in the Columbus field, and he will make just as good with Uncle Sam.

Aspires to Be First.
Columbus aspires to be the first of the large cities of the state to enfranchise its women. The backers of general suffrage hope to have all the women here take part in the city election next November. There will be an initiative amendment proposed to the city charter enfranchising women. It will be voted on at the August primaries, and, if carried, the women can take full part in the municipal election in November. Strong support is expected to the movement to enfranchise women because of the tendency of the times in that direction and the stimulus that is coming from the activity of women in every form of preparation for war.

Marysville Cost Goes Higher.
The state board of administration has ordered 17 women transferred from the new women's state dormitory at Marysville because of a recent opinion by the attorney general that only women convicted of violating state laws may be sentenced to that institution. Of the 17 ordered transferred, the majority are from Cincinnati and Dayton. Complaint has been made that the per capita cost at this institution is \$9 per day. When the divisor of the cost is reduced by 17 the per capita will be increased by one-half.

APOLOGIZES AND THEN KISSES THE U. S. FLAG

Mansfield, April 11.—"If it were for a German flag, I would gladly give something," said a naturalized American, formerly of Germany, when asked to make a contribution for the purchase of a flag at the Ideal Electric & Mfg. Co. plant.
He was seized and thrown out of the building. Employees told officials they would not work with him. At the dedication and raising of the flag, the man was given a chance to salute and kiss the flag. He apologized for his remark and kissed the flag.

UNCLE SAM COMPETES WITH MANUFACTURERS

Washington, April 11.—Uncle Sam's new steel plate plant will compete with the steel manufacturers, not only in the making of armor plate, but in the manufacture of steel forgings. Secretary of the Navy Daniels announced.
Despite the agreement of steel-makers to cut prices to the government for war supplies, the secretary declared that the construction of the steel plant will not be abandoned. On the contrary, he said the new government factory will extend its operations beyond the original plans.

700 Get Pay Boost.
Shelby, O., April 11.—The board of directors of the Ohio Seamless Tube Co. has granted a 10 per cent increase in wages, effective immediately. About 700 men are benefited.

Had Trouble Four or Five Years.
Many people suffer from bladder trouble when they can be quickly relieved. W. J. Furry, R. F. D. 2, Salem, Mo., writes: "I was bothered with bladder trouble four or five years. It gave me a great deal of pain. I took different medicines, but nothing did me any good until I got Foley Kidney Pills." F. A. Morris, Canfield, Adv.

RUDOLPH W. ARCHER

Mr. Archer lives in Cleveland and is the choice for manager of the Republican party in Ohio under the plan for reorganization.

BREAK WITH SUBLIME PORTE IS NOW FEARED

Fate of Americans in Turkey and Bulgaria Causes Washington Grave Concern.

Washington, April 11.—The fate of Americans in Turkey and Bulgaria caused President Wilson and his advisers grave concern, as a clash between those two nations and the United States became apparently unavoidable. At war with Germany, all relations with Austria broken, the state department saw little hope of avoiding a complete rupture with all the Teutonic allies. The apparent impossibility of getting Ambassador Elkus and other Americans out of Turkey in the event of a break with the sublime porte was laid before President Wilson and his advisers at the second war meeting of the cabinet. The state department and the navy department at once took up the problem of making some arrangement to assure the safety of Americans in Turkey, should the apparently inevitable break come. Their consideration of various plans proved anything but encouraging.

The state department has been without advice from Ambassador Elkus for four days. The break with Austria cut off the usual line of communication, via Vienna. The department was plainly concerned over what may be happening in Turkey.

AUTO OWNER FEEDS HIS MACHINE MAPLE SYRUP

Chardon, April 11.—An automobile owner of this vicinity feeds his machine maple syrup. His oil supply low, he came to Chardon to buy more, handed syrup cans to the dealer and mumbled something about oil.

On the way home he noticed the oil supply in the car was getting low, so he brought out the supposed can of oil and filled the tank.
For one mile the machine spun along. Then it bucked. Nothing seemed to be wrong, except that it would not go. There was gasoline, there was water, there was spark, but there the auto stood. The crank was as solid as if it had been cast a part of the machinery.

When the car was hauled to a repair shop and it had been taken to pieces, workmen discovered the cylinders coated with maple sugar. The whole inside was clogged with sugar. The heat of the engine had completed the "boiling down" process.

SEVEN BILLION DOLLARS IN NATIONAL SECURITIES

Washington, April 11.—Seven billion dollars in national securities will be the first "war credit" arranged by the United States government, according to a determination reached by the committee on ways and means of the house of representatives.

Following a discussion which extended throughout the day and in the course of which no partisan line of cleavage developed, but Democrats and Republicans worked as members of the one great American party, the committee decided to report a bill authorizing the issuance of \$5,000,000,000 of 3 1/2 per cent 20-year gold bonds and \$2,000,000,000 worth of certificates of indebtedness bearing the same rate of interest but running only a single year.

Rejects Home Rule Charter.
Hamilton, O., April 11.—Hamilton voters decided they do not want a home rule charter and voted against it 2,540 to 1,351. Defeat is due in large degree to the Socialists.

Ends Life in Corn Crib.
Findlay, O., April 11.—John Essinger, 45, committed suicide by hanging in his corn crib. His mind was deranged.

Safe Medicine for Children.
"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective in relieving coughs, colds and croup. Obtainable everywhere.—adv.

Apples an Ideal Fruit

The apple is an ideal fruit. Used raw, cooked, dried, evaporated, canned, preserved or in any other way, it is a wholesome food. Menus can be delightfully varied by the use of apple dumplings, baked apples flavored with cinnamon, apple fritters, fried apple float, etc. The international association has issued an apple booklet, from which the following recipes are taken:

Apple cup custard—Pare, core and cut in four good sized, tart apples until tender; press through a sieve. While hot add one tablespoon of butter, four tablespoons of sugar, the yolks of four eggs and one half pint of milk. Turn into baking cups and bake 20 minutes. Beat the whites of four eggs until stiff, add four tablespoons of sugar, heat and heap over the tops of the cups; dust thickly with powdered sugar and brown in oven. Serve cold.

Apple croquettes—Pare, quarter and core enough tart apples to make a pint; place in a saucepan with one small tablespoon of butter and, if the apples are not juicy, a few tablespoons of water. Cover and stew gently until tender, then press through a sieve. Return to the fire and add sugar. Add one tablespoon of cornstarch and one quarter of a teaspoon of salt mixed to a thin paste with cold water; stir until thickened, cover and cook slowly for 15 minutes. Turn out on a greased dish and set away until cold. Form into tiny croquettes, roll in bread crumbs, dip in lightly beaten egg, then roll again in bread crumbs and fry in deep fat; drain on unglazed paper and serve with roast pork or roast goose.

Delmonico apples—Put a layer of apple sauce in a buttered pudding dish, sprinkle with ground almonds, dot with butter and sprinkle with crushed macaroons, add a little water and bake. Delicious when served with meat.

Apple charlotte—Soak one quarter of a box of granulated gelatin in two tablespoons of cold water; add to one pint of hot apple sauce, flavor and press through a sieve. As soon as the mixture begins to harden, stir in one pint of whipped cream. Line a mold with ladyfingers, pour in the mixture and set away to cool.

Apples en Casserole—Pare, core and slice two quarts of apples and put in an earthen dish, alternately, with one and one half cups of sugar; add one fourth cup of cold water, cover the dish and bake in a moderate oven. Serve either hot or cold with cream.

Apple catchup—Quarter, pare and core 12 sour apples. Put in a saucepan, cover with water and let simmer until soft; nearly all of the water should be evaporated; rub through a sieve and add the following to each quart of pulp: One cup of sugar, one teaspoon of cloves, one teaspoon of mustard, two teaspoons of cinnamon, and add one tablespoon of salt, two cups of vinegar and two grated onions. Bring the catchup to a boil and let simmer gently for one hour. Bottle, cork and seal.

Frosted apples—Pare and core 10 large apples. Cover with one pint of water and three tablespoons of sugar; simmer until tender. Remove from the syrup and drain. Wash the parings and let simmer with a little water for one half an hour. Beat the white of one egg to a stiff froth and add one tablespoon of sugar. Coat the top of the apples lightly with the meringue and place in a cool oven to dry. Strain the juice from the parings, add two tablespoons of sugar, return to the fire and let boil for five minutes; add a few drops of lemon and a little nutmeg, cool and pour around the apples.

Needlework Notes.
Quaint and pretty was a bath towel noted recently. It had yellow sunflowers worked in satin stitch across the bottom which was scalloped in big square scallops of white. These scallops were outlined on the inside with blue. Blue tassels were hung between the scallops, and the effect achieved was exceedingly quaint.

Instead of joining the seams of lingerie with fine heading or having them hemstitched, you may try this method. Put about eight thicknesses of wrapping paper between the two edges to be seamed. Then with a loose tension on the sewing machine and a medium-sized stitch, stitch as you would any seam. Pull the paper away and roll or hem down the raw edges of the seam. When the stitching is pulled apart it looks very much like hemstitching. A strong thread is a wise precaution.

A THOROUGH TEST

One To Convince the Most Skeptical Canfield Reader.

The test of time is the test that counts.
Doan's Kidney Pills have made their reputation by effective action. The following case is typical. Canfield residents should be convinced.

The testimony is confirmed—the proof complete.
Testimony like this cannot be ignored.
Thomas Crothers, farmer, Canfield, says: "I had pains in my back and my kidneys were badly disordered. Sometimes the kidney secretions were retarded, then again profuse in passage. Three boxes of Doan's Kidney Pills, procured at Morris' Drug Store, cured me."

Went for Good.
OVER FIVE YEARS AFTER Mr. Crothers said: "Doan's Kidney Pills fixed me up so well that my kidneys have not bothered me since."
Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Crothers has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—adv.

586.8 Miles

Through the Heart of Chicago in 24 Hours

A Typical Chalmers Performance

At 12 noon, Monday, March 26, a stock Chalmers seven-passenger touring car with first and second gears removed, was started north on Michigan Boulevard through Chicago traffic.

At noon Tuesday, March 27, the Chalmers was stopped at the starting point. It had gone 586.8 miles through Chicago's densest traffic. The motor had never been stopped. Nothing but high gear was used.

To prove conclusively Chalmers flexibility on high gear, the low and intermediate gears were removed from the transmission.

The car was a standard Chalmers seven-passenger touring model, complete with standard body, top and full equipment. The same model you can buy today.

An average of slightly over 14 miles per gallon of gasoline was attained, an excellent example of Chalmers economy.

586.8 miles, through the famous congested Chicago "loop" district, is a wonderful feat. This performance on high gear is even more wonderful. It is without an equal.

It is an endorsement of the motor. It proves Chalmers reliability. It demonstrates Chalmers cooling. It shows Chalmers flexibility and perfect control. It is a new achievement.

A condensed summary of the signed certificate issued by the Contest Board of the American Automobile Association, under whose supervision the test was made, is reproduced below.

THIS IS TO CERTIFY that the Chalmers seven-passenger car above mentioned was a fully equipped stock car. It was driven for 24 hours through Chicago traffic. Only high gear was used. The motor was never stopped during the run. The mileage obtained was 586.8 miles. The gasoline consumption was an average of slightly over 14 miles per gallon.

R. K. Remondelle
Chairman Contest Board, American Automobile Association.

Some Other Chalmers Achievements

Chicago to New York

On June 7, 1916, a Chalmers stock car shattered all existing road records between Chicago and New York, making the run of 1047 miles in 31 hours. The best previous time was made by a Packard driven by E. C. Patterson, whose time was 35 hours 43 minutes.

Giant's Despair Mountain Climb

On October 6th, 1916, a Chalmers captured the free-for-all event at the Wilkes-Barre hill climb on Giant's Despair mountain, winning the \$1,000 Hollenbeck Trophy and defeating four 12-cylinder cars, several well-known racing creations

and many of the highest-priced and highest-powered American cars.

Wins Pike's Peak Climb

August 11, 1916, a Chalmers carried off first honors in the 230 cubic inch class on the terrific grades of Pike's Peak in Colorado. Its time was within a few seconds of much higher-powered, and specially built machines.

Detroit to Indianapolis

On June 12, 1916, the Chalmers set a new record over the roads between Detroit and Indianapolis, 305 miles, making the trip in eight hours, 23 minutes.

Atlanta to Chattanooga

June 24, 1916, a Chalmers lowered all records between Atlanta and Chattanooga. The distance of 125 miles was covered in 3 hours, 53 minutes. This is faster than the time of the Dixie Flyer, the fastest railroad train of the south.

Dallas to San Antonio

Another famous train—the Katy Limited—was beaten by a Chalmers between Dallas and San Antonio. The Chalmers made the run in 9 hours and 22 minutes, 1 hour and 33 minutes faster than train time.

Resurrection An Easter Carol By FREDERICK MERES

The tomb was sealed, the watch was set, Within the portals lay the form Who by the host of heaven was met, As he arose on Easter morn When the Angel rolled away the stone, The risen Lord in glory shone, And though the tomb was sealed, Resurrection was revealed.

The Roman guard in terror fled From the Angel bright, with flaming sword, When the Son of Man rose from the dead, And spoke to frightened souls the word That conquers sin, prevails o'er death, Transports the soul at parting breath, And though the tomb was sealed, Resurrection was revealed.

The Magdalen with pious love, At early morn sought the tomb, As early morn sought the tomb.

Was met by Angel from above, Who pointed to the empty room, The grave clothes on the floor were spread, Not with the napkin that pressed his head; And though the tomb was sealed, Resurrection was revealed.
"Who seek ye here?" the Angel said To Mary, who was bound in prayer "The living Christ among the dead, He is not here, but will appear In glory, filling all the skies." The pardoned sinners' sacrificial; And though the tomb was sealed, Resurrection was revealed.

What the Season Means to Us.
The real reason that we ought to get out of this Easter season is not simply the fact of life beyond death, but rather the possibility and the beauty of living the risen life while we are yet in the body. If, after the strains of Easter music have died away, and the fragrance of the lilies has gone from the church, we pass on to live the same old lives, seeking the things that are below more zealously than the things that are above, what has Easter profited us? In what way does the fact of Christ's resurrection make its power felt in the molding of our character and the forming of our life plans? If, having passed through the events of the Passion week, and experiencing in thought the glory of the resurrection morning, we do not attune our lives to a diviner key, and bring more of heaven into our everyday pursuits, are we not worse rather than better for these experiences?

Spring.
Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere.—adv.

Cheap Money

Bradstreet reports that the cost of commodities has increased 51 per cent since 1914. In other words, a dollar today, measured by prices in 1914, is worth only 41 cents. Save your dollars today and when prices return to normal you will reap a substantial profit.
